

EC5-50A Series Ultra Low Loss Coaxial Cable

716FV78MA

SPTC50AV78M

Having successfully launched the EC7-50A & EC6-50A Series Ultra Low Loss Coaxial Cables, Eupen Cables announces the introduction of the **EC5-50A Ultra Low Loss 7/8" Cable and Associated NEW 7/8" A connector.**

Main Features & Benefits:

- **Cost Savings** thanks to **Improved Attenuation.**
- Bending Moment **20% lower** than previous model.
- High Crush Resistance.
- **NEW improved 7/8" A connector** for the NEW EC5-50A.
- 100% Fixings & Accessories compatibility with previous model.

The improved EC5-50A replaces the EC5-50 as of NOV.17.2006

For EC5-50A, use only new 7/8" A connectors as listed below.

Cable	Tool	Connector	Example of a 7/8" A connector Label
7/8" Ultra Low Loss EC5-50A (5228A)	SPTC50AV78M	716FV78MA (O-Ring) 716MV78MA (O-Ring) NF50V78MA (O-Ring) NM50V78MA (O-Ring) 716FA78MA (Silicone) 716MA78MA (Silicone) NF50A78MA (Silicone) NM50A78MA (Silicone)	 Red color

Totally Watertight.

Eupen connectors are designed to prevent water ingress and exceed industry standards by passing the severe IP67/68 tests.

Dynamic PIM.

The advanced connector design guarantees that low PIM is maintained in the harshest of conditions to ensure premium system performance over long service life of the system.

Eupen Quality.

Eupen's EC5-50A cable and connectors offer premium performance while maintaining the rugged quality that made Eupen the innovative leader in coaxial cable design.
