Now available:
extra-soft plus quality
for pillows and toppers

EUCASELECT®

Your foam of choice

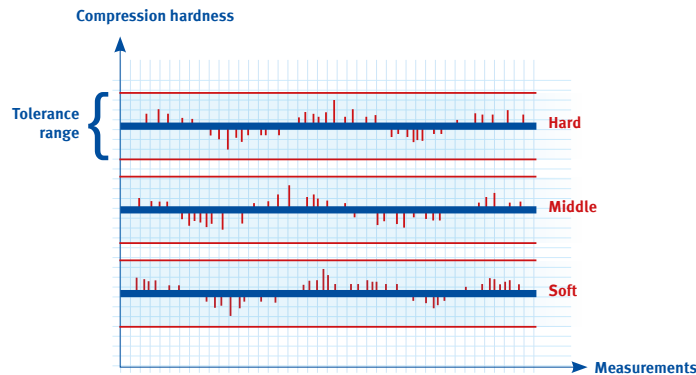

EN

MADE IN EUPEN

Our new “plus” quality for toppers and pillows

With our new Select 4318 quality, we offer you a particularly soft foam in the “plus” quality category:

- **New applications:** Alongside toppers or pillows, this new quality is also an outstanding choice when it comes to ergonomic support elements, for example for the shoulders.
- **A wide variety:** When it comes to getting a comfortable night’s sleep, people have very different needs and requirements. With EUCASELECT®, you can always offer your customers the ideal product.
- **Reliable degrees of hardness:** With EUCASELECT®, you always enjoy foams with specified degrees of hardness. These values are guaranteed by the tight tolerances that we apply when manufacturing our foams.

Guaranteed tight hardness tolerances in foam production

The EUCASELECT® brand offers a wide range of premium products with a multitude of different combinations with regard to density, compression hardness and comfort index. EUCASELECT® foams offer densities ranging from 25 kg/m³ to 70 kg/m³ in up to five different compression hardnesses, thus providing optimal comfort for each individual user. Whatever the combination, the foams not only gently absorb the body but also offer maximum support at the same time.

Reliable degrees
of hardness?
Absolutely:
tight hardness tolerances
enable constant quality.
