

**EUCABASE<sup>®</sup>**

**Start with quality**

EN

MADE IN EUPEN

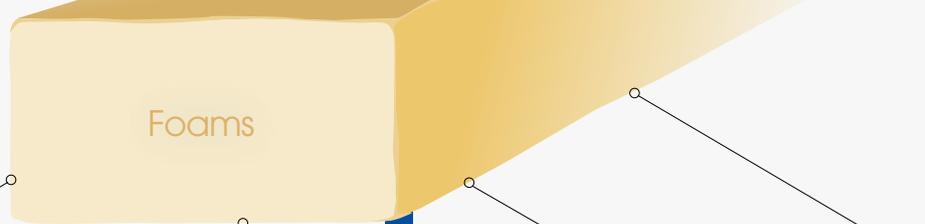

Looking for high-quality foams?  
Here's your choice!

**Our foams in three variants:**

- first** Highest performance and comfort
- plus** Noticeably more performance
- classic** Proven quality

**15-85 BD** This product offers bulk densities (BD) in a range of 15-85 kg/m<sup>3</sup>.

**EUCABASE®**  
The stable and robust foam

- up 24 BD
- 25-39 BD
- from 40 BD

**EUCASELECT®**  
Diverse quality for high-quality products

- up 39 BD
- 40-49 BD
- from 50 BD

**EUCAFEEL®**  
High-end special foam for premium products

- up 44 BD
- from 45 BD

**EUCAVISCO®**  
Comfort foam with memory effect

- up 49 BD
- 50-59 BD
- from 60 BD

- Special breathability:**  
The open-pore cell structure enables a high degree of air circulation
- Reliable hardness:**  
Tight tolerances ensure consistent quality
- Extensive certification:**  
Our safe, low-emission products exceed by far the required standards

- Practice-oriented specialists:**  
Best chemical expertise, decades of experience, constant striving for innovation
- Unique formulation:**  
High-quality raw materials, special stabilizers and optimized catalysis
- State-of-the-art process engineering:**  
German machine technology and high pressure foam systems

Robust and stable  
foams?

Sure! As well as  
being economical  
and high quality.

**EUCABASE<sup>®</sup>**

## Form stability for long service life

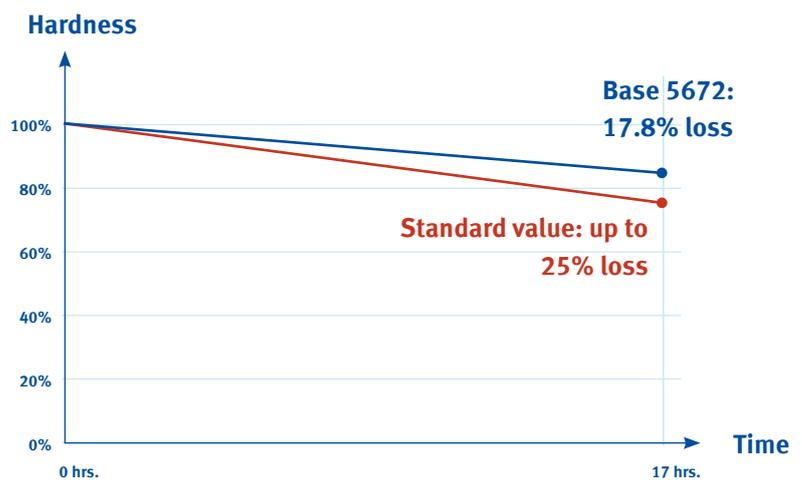

### Your customers will thank you

The decision for a new mattress or a new piece of furniture is usually one made for the long-term. At the same time the products need to prove their quality for every application. With foams by EUCABASE®, your customers receive **a reliable companion for long-term sleeping and seating comfort.**

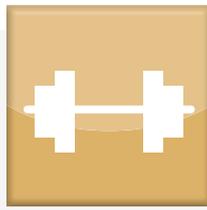

Sleep instead of sag: Our rigid mattresses optimally support the body load and afterwards return to their original form. EUCABASE® is therefore a first-class entry in our new family of brands: **Start with quality.**

Many products are becoming increasingly short-lived – but not the high-quality foam products from our new EUCABASE® brand. These signify particularly **high durability and long-lasting comfort.** The reason: For EUCABASE®, we use a specific formula and an optimised catalysis. As a result, the EUCABASE® foams have **long-term form stability.**

Thanks to the high degree of form stability, our high-quality EUCABASE® products keep their excellent hardness over a very long period. Our EUCABASE® foams have a **significantly lower loss of hardness** than traditional foams.

**Static ageing test: EUCABASE® with a lower loss of hardness compared to conventional foams**

Long-lasting comfort?  
No problem with  
robust and stable  
foams.

High quality with  
greater profitability?  
Raw materials, formula  
and production technology  
make all the difference.

## Load capacity meets efficiency

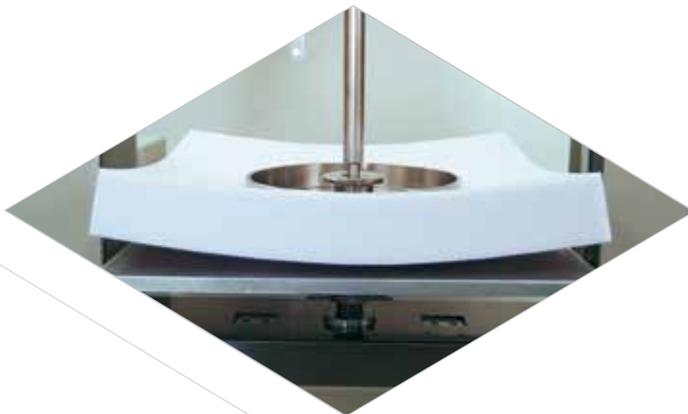

Knowing how it works: With our chemical and technical know-how, our EUCABASE® products achieve a particularly high load-bearing capacity. The specific formula, the selection of the best raw materials from renowned manufacturers and the state-of-the-art technology make all the difference.

Best entry-level quality at excellent prices: We place the emphasis on an **exceptional value for money** with EUCABASE®. Consequently, you can offer high-quality products whilst increasing profitability.

**Your customers lie down and sit with comfort**

No matter what your customer needs: EUCABASE® foams have **a considerable load capacity**. The high-quality PU foam cores also withstand great loads.

A colossus from Eupen: EUCABASE® offers seating and sleeping comfort for everyone. Your customers will experience stability and quality every day. EUCABASE® – **Start with quality.**

Can the quality  
be proven?

Yes, with values that  
far exceed the certified  
standards.

## Tangible security

More quality: Like all of the products from our new brands, the EUCABASE® products also impress with their open cell structure for optimum air circulation, as well as certified zero emissions.

Numerous certificates serve to confirm the high quality of our EUCABASE® foams:

- STANDARD 100 by OEKO-TEX® – product class 1
- IQNet – EN ISO 9001:2008
- CertiPUR
- Bio-compatibility – DIN EN ISO 10993-1
- EcoVadis Corporate Social Responsibility (CSR)

You can therefore be safe in the knowledge that you will receive high-quality foam products for your applications.

**Your customers have relaxation guaranteed**

A soothing **sense of security** for your customers: The foam from EUCABASE® provides your customers with a product that shall meet the highest of standards at all times.

It's simply clear: EUCABASE® guarantees reliable quality.

The wide portfolio of certificates meets even the most demanding of requirements.

EUCABASE® – **Start with quality.**

### Cell structure:

**The open cell structure ensures optimum air circulation.**
